Position

There are open positions for an Instrumentation Technician, locally based in Melbourne – Vic, to install and maintain the geotechnical instrumentation for major infrastructure constructions in the city. Those people will work within the project team in the Melbourne office, under the supervision of the Project Manager. The duration of the project is 4+ years but the position is a permanent one with potential further assignment(s) in Australia, New Zealand or overseas. SIXENSE environment brings outstanding career opportunities for skilled & motivated employees.

Desired skills

- Knowledge and experience of Geotechnical and/or Survey,
- Instrumentation techniques,
- Always adopt safe attitude and respect safety procedures,
- Experience working on & around construction sites,
- Installation experience, comfortable working with hand tools,
- Comfortable working both at the job site and office,
- Can work independently, unsupervised and show initiative,

- Good written English and communication skills,
- Good computer skills (Microsoft Office, etc),
- **Eligible to work unrestricted in Australia,**
- Australian driver's license.

Remuneration

- Salary based on skills and experience,
- Option to purchase shares at preferable rate.
